If you would like a copy of this software, please write to [software@vocalprofiling.com](mailto:software@vocalprofiling.com)

Designed to scan vocal patterns for frequencies traditionally associated with Radiation exposure. Creates management reports for you to share with your health care Provider in support of optimal form and function.

The Radiation Rescue Vocal Profiling Software requires a microphone and Excel (usually bundled with Microsoft Office) or equivalent. Read the computer specs at the end of this information. Not Mac supported but doable.

Not evaluated by FDA; not intended to diagnose, prescribe for, prevent, mitigate, treat or cure any medical condition. Information purposes only.
